Hey Don,

We have a call with TX scheduled for the 31st of March. We're you invited to that?

Tim

Hi Michael,

We are all still learning to adapt here, but i think we are all OK so far.

I am copying Melanie peters on your message since she is now our regional haze coordinator. I am also copying the rest of our RH group.

We have been participating in the CENSara calls, but they have not been very informative, as i suspect that the CENSara states do not yet have a good idea of what they are doing. We are concerned about a lack of consultation by TX, but that is nothing new.

thanks,

---

Tim, Bret, Don – Hope things are going well and everyone is adjusting to the current new normal.

R6 is interested in discussing SIP development in R6 states to address the second planning period requirements. By the end of next week we will have had discussions with all of our states on source selection for the four-factor analysis.

Please let me know who all should be invited to represent all of the R6 class I areas. Then I will try to find a time that works for most.

Thank you
